- B. In case of a Partnership Firm:
Any of the partners of the firm whose name is registered in Partnership deed can apply for the certificate.
- C. In case of a Proprietorship concern:
Only the proprietor of the concern can apply for the certificate.

Note: An employee of a Partnership or Proprietorship firm with a "Registered Power of attorney" document can apply for digital certificate with organization name.

Issuance Process:

1. A client submits the subscriber application form (SAF), other supporting papers & payment to the dataedge Registration Authority (RA).
2. RA verifies all the documents and does paper work as per the certificate classes.
3. If everything founds OK then RA provides a Registration Number of that corresponding type of certificates to client.
4. Client does the online enrollment using the provided Registration Number through a SSL enabled secure channel.
5. Now the RA will check the information of certificate's request. At this stage RA will check information according to the submitted SAF & other supportive documents. If

dataedge CA Certificate Issuance Policy

everything is correct then RA approves the certificate request and forwards it to Issuing Authority.

6. Issuing Authority checks the certificate's details once again. If everything found OK then issues the certificate to client.
7. Finally, client downloads the certificate through a SSL enabled secure channel.
